

PRODUCT NAME
Eridu 120

PRODUCT CODE
E120A

Eridu 120 is a great setup for both beginners and advanced parkour runners. The medium size of the park accommodates many original obstacles that are possible to conquer from all the directions and thus making it a universal heaven for practice.

Parkour parks RVL13 offer a quality training of strength, balance, and dynamic tricks. Although parkour can be practiced anywhere in the countryside or urban areas, the best solution for training of individual movements is the safe environment of a well-built parkour park with a soft sports surface. Each setup is organized to offer the widest possible range of routes and obstacles of diverse types from balance beams to walls, jumps and inclined platforms.

Parkour parks designed by RVL13 comply with the strictest safety norm EN 16899 and their layout is in hands of leading Czech parkour athletes. All materials used in the parks are carefully chosen to imitate the natural parkour environment such as special vibrated concrete, anti-slip surface desks and steel profiles with anti-scratch surface treatment for the best possible grip.

SEGMENTS

Basic information

Brand RVL13.COM
Usage exercise, stretching, strengthening

Technical Specification

Dimensions ---
Critical fall height (HIC in m) 1.88m
Color scale RAL Palette
Stand count 28+
Surface
A) sprayed zinc base + komaxit 120 μ B) hot dip galvanization + komaxit 120 μ

Materials	Diameter	Width
Dips	51mm	4,5mm
Bars	33,7mm	3,5 - 4,5mm
Pillar (square plan)	100mm	4,0mm

Recommended flooring

Optimal dimensions 11.5m x 10.5m
Floor surface Concrete slab + EPDM or concrete feet + loose material

Company Enuma Elis s.r.o. always recommends installation in accord with the safety norm 16:630

Delivery and installation

Lead time 5 - 8 weeks
Standards EN16:630
